4. ONE publications:

(1) SNIE 53-2-63, "The Situation in South Vietnam," includes stability of country, viability of Diem regime and US-GVN relationships.

(2) "Addis Ababa Conference and Its Aftermath," Central theme was liberation of those African countries still under colonial or white minority rule.

(3) "Significance of Portuguese and Spanish Colonial Problems for the US." Portugal, still beset by colonial problems, unlikely to contemplate self-determination for overseas territories while under Salazar. Spain's colonial problems less critical.

5. OCI production:

(1) "Sukarno's Intentions toward Malaysia." Still intent on Indonesia becoming dominant SEA power, Sukarno objectives unchanged. Will attempt to erode Western-oriented strength in Malaysia.

(2) "Mission of Soviet Ballistic Missile Submarines." Suggests that these units now assigned role in initial Soviet strategic attacks against land targets in event of hostilities.

(3) "Prospects of the Gaullist Party in France." Not cohesive, deGaulle's UNR Party would probably turn much of its support elsewhere-- if the old gentleman disappeared from the scene in next year or two.

(4) "Political Trends in Ceylon." Prime Minister Bandaranaike's position weaker now than anytime since she took office in 1960.
